- Board Member Nicely- yes
- President Boss- yes

6. OLD BUSINESS:

None

7. NEW BUSINESS*

None

8. PRESENTATION AND REVIEW OF FINACIAL STATEMENTS*

A. August 2019 Finances:

- Mr. Hamblin reported the following information:
 - o Cash on hand \$3,178,068
 - o Total patient revenue was under budget by 2.3%
 - o Surplus of the first 2 months of the year is over \$700,000
 - o Swing days are close to budget
 - o SNF days are increasing
 - o SNF residents are at 16
 - o ER visits are under budget
 - o Surplus \$538,000
 - o Operating expenses are 1% lower than budget
 - o Dental visits have increased
 - o Continue to discuss FTE with managers
 - o Will provide an update to the committee next month

B. CFO Report:

- Mr. Hamblin reported the following information:
 - o Capital Expenditures:
 - o Most items that have been added are items that were discussed last month
 - o SNF tile completed
 - o Nutonics server replacement
 - o Chiropractic bed is on site
 - o Laboratory items are in process
- Discussion took place in regards to the Capital Budget Expenditure list and that
 mangers are following up on the items listed to ensure they are purchased and if
 not then confirm that the requested item can be removed from the list if they no
 longer need the items listed.
- Board Member Nicely once again stated that the items on the list need to be completed and would like staff to complete their projects.

o Grant Writer Status Report:

- o Applications have been filed and several have been submitted and in pending status
- o Thirty-day extension has been executed effective 10/1/19
- o HRSA Grant response time to applications is lengthy
- o MAT is a \$50,000 grant we received
- o Private foundations are being sent letters
- o Identifying grants that are available
- Discussion took place regarding the need for a grant writer and the status of an agreement. The current agreement expired on 9/30/19. Board Member Nicely stated that the cost of the position and the grants we have received are not supporting the need of a grant writer and that the staff is completing the applications and providing them to Fundamental Concept who then submits the completed application and did no work. Board Member Nicely stated that she will not support the renewal of an agreement and asked that Administration consider training a current employee to take this job duty over. Board Member Boss stated that a month to month agreement might meet the needs of the Hospital. The Finance Committee asked that this item be on the October Board Meeting Agenda for discussion.
 - o BVCHD Employee Health Insurance / Clinic:
 - o 31 have selected PPO plans out of a 130 employees
 - o 8 employees who do not take benefits through the District
 - o Managed Care Review:
 - o Working with QHR to obtain information on our current agreements
 - o Will be in contact with Andy Werking
 - o Each service line will be reviewed
 - o This will take a few months to review
 - o TruBridge AR:
 - o AR days gross decreased 59.6
 - o Net days 43.5
 - o Average of 54 days and a benchmark of 45

- o Payor mix drives the target for each Hospital
- o Benchmark of 60 gross days was target
- o Pulled data from QHR
- o Comp size gross days of 138.4 to 38.2
- Board Member Nicely stated that she would like to have the department policies and procedures from Patient Financial Services, IT Department, Accounting Department and HIM Department. These policies need to be updated and sent to the appropriate committees and the Board of Directors for potential approval.

Board Member Nicely motioned to approve the August 2019 Finance Report and CFO Report as presented. Second by Board Member Boss to approve the August 2019 Finance Report and CFO Report as presented. Board Member Nicely called for a vote. A vote in favor of the motion was unanimously approved.

- Board Member Nicely- yes
- President Boss- yes

9. ADJOURNMENT*

Board Member Nicely motioned to adjourn the meeting at 2:03 p.m. Second by President Boss to adjourn the meeting. Board Member Nicely called for a vote. A vote in favor of the motion was unanimously approved.

- Board Member Nicely- yes
- President Boss- yes

Recommendation for Action

Date: 04 December 2019

To: Board of Directors

From: Garth M Hamblin, CFO

Re: Audited Financial Statements – Fiscal Year Ended June 30, 2019

Recommended Action

Accept and approve the Bear Valley Community Healthcare District Audited Financial Statements for the Fiscal Year ended June 30, 2019 (July 1, 2018, through June 30, 2019.)

Background

Attached are DRAFT Audited Financial Statements for FY 2019. The DRAFT watermark is on the audit report until approved by the board when final statements will be issued.

The Finance Committee is scheduled to review the AFS at their meeting on December 9, 2019.

Our auditor, Jerrell Tucker, is scheduled to attend the December 11, 2019, Board meeting to present Statements to the full board.

Report of Independent Auditors

The Board of Directors Bear Valley Community Healthcare District Big Bear Lake, California

Report on the Financial Statements

We have audited the accompanying financial statements of Bear Valley Community Healthcare District (the District) as of June 30, 2019 and 2018, which comprise the statements of net position as of June 30, 2019 and 2018, and the related statements of revenues, expenses and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and in accordance with the State Controller's Minimum Audit Requirements for Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District at June 30, 2019 and 2018, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 14 be presented to supplement the financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context We have applied certain limited procedures in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management regarding the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Fresno, California December 11, 2019

Management's Discussion and Analysis

June 30, 2019

The administration of the Bear Valley Community Healthcare District (the District) prepared the following Management Discussion and Analysis of the financial performance of the District for the fiscal year ended June 30, 2019 (FYE 2019) to accompany the financial statements prepared in accordance with the Governmental Accounting Standards Board Statement Numbers 34, 37 and 38. This discussion and the associated schedules are intended to provide an analysis, explanation, and historical basis of comparison for the reporting of financial results of the District for FYE 2019. The audited financial statements included herewith have been prepared and submitted with an unmodified opinion from the District's independent auditor.

Overview of the Bear Valley Community Healthcare District and its Financial Statements

This annual financial report consists of the audited financial statements included herewith and the associated notes to those statements that describe the District's combined financial position and results of operations for the FYE 2019. The audited financial statements of the District include the statement of net position, statement of revenues, expenses and changes in net position, and statement of cash flows.

- The statement of net position includes all of the District's assets and liabilities, using the accrual basis of accounting, as well as any indication as to which assets are intended for use to fund future capital asset expenditures or otherwise designated as to use by board of director policy.
- The Statement of Revenues, Expenses, and Changes in Net Position present the results of operating and non-operating activities during the fiscal year and the associated incomes.
- The Statement of Cash Flows reports the net cash provided by operating activities, as well as other sources and uses of cash from investing, non-capital financing activities, and capital and related financing activities.

Financial Highlights

				Chan	ge
	2019	2018	2017	2019	2018
Current assets	\$ 5,963,589	\$ 6,916,234	\$ 7,427,624	\$ (952,645) \$	(511,391)

Management's Discussion and Analysis

June 30, 2019

CURRENT ASSETS

Current assets are cash or other assets that could reasonably be expected to be converted into cash in one year. Current assets decreased by \$952,645 from last year. Net Patient Receivables decreased by \$1,298,648. Cash increased by \$153,116. The table below also shows a significant increase in Investments.

Current Assets				Change			
	2019	2018	2017	2019	2018		
Current assets	\$ 5,963,589	\$ 6,916,234	\$ 7,427,624	\$ (952,645) \$	(511,391)		
Cash	2,406,940	2,253,824	2,858,405	153,116	(604,581)		
Net patient receivables	2,885,934	4,184,582	3,924,581	(1,298,648)	260,001		
Other Assets	127,266	148,672	239,655	(21,406)	(90,983)		
Assets whose use is limited	-	-	-	-	-		
Inventory	136,982	129,318	212,805	7,664	(83,488)		
Prepaid expenses	406,467	199,838	192,178	206,629	7,660		
Investments	\$25,298,992	\$17,668,421	\$11,038,559	\$ 7,630,571 \$	6,629,862		

Cash and Investments

The District maintains sufficient cash balances to pay its short-term liabilities. Excess funds are invested with the Local Agency Investment Fund (LAIF) or in interest bearing fully guaranteed certificates of deposit distributed among various financial institutions to ensure FDIC protection of principal amounts invested. LAIF is a voluntary fund created by statute in 1977 as an investment alternative for California's local governments and special districts.

During the year, our investments grew by \$7,630,571 bringing the total to \$25,298,992

For the year ending June 30, 2019, the District's cash and investments increased by \$7,783,687. Total days cash on hand increased by from 311 to 421. See audited financial statements for additional information.

Cash and Investments

						Change			
		2019		2018	2017		2019		2018
Cash and cash equivalents	\$	2,406,940	\$	2,253,824	\$ 2,858,405	\$	153,116	\$	(604,581)

Management's Discussion and Analysis

June 30, 2019

Net Patient Accounts Receivables

Net patient accounts receivables at June 30, 2019, as compared to June 30, 2018, were lower by \$1,298,648. Management and staff continue to work with our Accounts Receivable Management company (outsourced Patient Financial Services / Billing functions) to reduce Accounts Receivable and Accounts Receivable Days.

				Change			
	2019	2018	2017	2019	2018		
Net patient receivables	2,885,934	4,184,582	3,924,581	(1,298,648)	260,001		
Inventory							
•				Change			
	2019	2018	2017	2019 20	18		
Inventory	\$ 136,982	\$ 129,318 \$	212,805 \$	7,664 \$ (8	3,487)		

The inventory at June 30, 2019 was slightly higher than the inventory at June 30, 2018.

CAPITAL ASSETS

Capital assets are long term assets such as buildings, improvements and equipment with a purchase cost of \$5,000 or more and a useful life greater than one year. Items costing less than \$5,000 are expensed as minor equipment. Capital assets, net of accumulated depreciation, increased \$129,368 as of June 30, 2019, over the prior year balance.

Capital additions totaled \$1,096,090 during FYE 2019. We have continued to closely monitor capital expenditures. Notable expenditures in FY 2019 included – replacement of outdated patient monitoring system; Emergency Department remodel (bathroom, flooring, cabinets, and countertops); replacement / update of servers for Health Information System; and purchase of land adjacent to our Rural Health Clinic.

Capital Assets

				Change		
	2019	2018	2017	2019 2018

Change

Management's Discussion and Analysis

June 30, 2019

CURRENT LIABILITIES

Current liabilities are short-term debts due in less than one year. At June 30, 2019, current liabilities decreased by \$419,263. We had a significant decrease in the line item "Third- party payor settlements".

Current Liabilities

				Cha	inge
	2019	2018	2017	2019	2018
Current Liabilities	\$ 5,057,811	\$ 5,477,074	\$ 2,506,984	\$ (419,263)	\$ 2,970,090
Current portion of long term debt	35,000	35,000	35,000	-	-
Accounts payable	929,814	913,724	1,137,648	16,090	(223,924)
Unearned Income	-	-	-	-	-
Accrued compensation	781,905	758,370	684,799	23,535	73,571
Third-party payor settlements	3,311,092	3,769,980	649,537	(458,888)	3,120,443

Accounts Payable

Accounts payable increased by \$16,090, only 1.8% from the FYE June 30, 2018 amount. Days in Accounts Payable increased only slightly (from 33.1 to 33.5) during the fiscal year.

Third-party settlements

The estimated third-party settlements are lower by \$458,888 at June 30, 2019, as compared to the prior year-end. During the year we recorded settlements from prior year Cost Reports.

Both the Medicare and Medi-Cal program administrative procedures preclude final determination of amounts due to/from the District until the cost reports are audited and settled. Administration is of the opinion that no significant adverse adjustment to the recorded settlement amounts will be required upon final settlement.

PATIENT REVENUE AND DEDUCTIONS FROM REVENUE

Under antitrust statues, hospitals are required to charge all patients the same price for a given level of service. Accordingly, the District charges all patients uniformly based on its established charge description master (CDM) pricing structure for the services rendered. In addition, all California hospitals are required to annually file an electronic version of their CDM, also known as the "charge master", with the Office of Statewide Health Planning (OSHPD). The District complies with the OSHPD filing requirement; therefore, an electronic version of the CDM is available from the OSHPD website. As of January 2019, we complied with the requirement to post Charge Master on our Website.

Management's Discussion and Analysis

June 30, 2019

Gross patient revenue for FYE 2019 increased over the previous fiscal year by \$673,310 or 1.3%. Outpatient Revenue (which includes Emergency Department and Clinics) we saw a 2.4% increase. We experienced decreased revenue in both Inpatient and Skilled Nursing Facility.

Management's Discussion and Analysis

June 30, 2019

Deductions from Revenue

A contractual adjustment is the difference between gross charges and a contractually agreed-upon payment rate with third-party payors. Typically, third-party payors are 1) government programs such as Medicare and Medi-Cal; 2) Independent Practice Associations (IPA) such as Heritage Victor Valley Medical Group, which are often referred to as "gatekeeper physicians", and 3) other third-party payors or Preferred Provider Organizations (PPO) networks, which generally include insurance carriers such as Blue Cross, Blue Shield, Health Net, Aetna, etc.

Contractual adjustments are accrual-based on estimates derived from historical reimbursement experience using remittance advices by payor and by type of account (inpatient, outpatient, or clinic), adjusted for known exposures, such as payment denials, and are used to reduce the gross charges to the expected realizable value.

Contractual adjustments as a percentage of gross patient charges, excluding prior year third-party settlement adjustments, were 48.2% for FYE 2019 compared to 52.2% for FYE 2018.

FY 2014 was our first year as a Critical Access Hospital (CAH). We continue to review CAH status and impacts each year.

Additionally, deductions from revenue include other uncompensated care categories such as Charity Care, Administrative Adjustments, Patient Discounts (principally discounts offered to uninsured or private pay patients who do not qualify for financial assistance) and Employee Discounts. Effective January 1, 2007, the California State Assembly passed AB 774, which requires all hospitals in California to follow a specific state-mandated means testing process to determine if a patient qualifies for financial assistance. The charity care can range from a full write-off to a partial write-off of the patient's outstanding balance. Furthermore, OSHPD requires every hospital to file an electronic copy of its financial assistance policy. As of June 30, 2019, the District is in compliance with the financial assistance policy reporting requirement.

Total deductions from revenue, including the provision for bad debts, as a percent of gross patient revenue, was 46.0% for FYE 2019 versus 50.9% for FYE 2018.

Management's Discussion and Analysis

June 30, 2019

	2019	2018	Change 2019
Deductions from Revenue			_
Contractual adjustments \$	25,734,533	\$ 27,506,494	\$ (1,771,961)
Prior year contractual allowances	(4,982,891)	(3,254,582)	\$ (1,728,309)
Charity Care	179,223	100,789	\$ 78,434

Management's Discussion and Analysis

June 30, 2019

Net Patient Service Revenue

Net patient service revenue is the difference between gross patient charges and revenue deductions. For FYE June 30, 2019, net patient services revenues increased \$2,917,258 or 11.3 higher than the previous fiscal year. Net patient revenue increased due to increases in volume in Outpatient (Emergency Room and Clinics revenues) along with the reductions that we experienced in Deductions from Revenue.

Net Patient Revenue

				Cha	ange	
		2019	2018	2017	2019	2018
Net patient service revenue	\$	28,820,063	\$ 25,902,805	\$ 23,963,785	\$ 2,917,258	\$ 1,939,020
					11.3%	8.1%

Management's Discussion and Analysis

June 30, 2019

OPERATING EXPENSES

Total operating expenses in FYE 2019 were \$25,123,685 as compared to \$24,428,874 for FYE 2018 – an increase of 2.8%. Salaries, Wages, and Benefits (which comprised just over 55% of Total Operating Expenses) increased by 2.8%. We saw only a slight increase in Professional Fees, and a decrease in Purchased Services.

						Chang	ge	
	2019		2018		2017		2019	2018
Salaries and wages	\$ 10,501,241	41.8%	\$ 9,777,302	40.0%	\$ 9,168,859	40.5%	\$ 723,939 \$	608,443
Employee benefits	3,518,511	14.0%	3,683,114	15.1%	3,568,108	15.8%	(164,603)	115,006

Management's Discussion and Analysis

June 30, 2019

FISCAL YEAR 2020 BUDGET AND ECONOMIC FACTORS

The District's Board of Directors approved the Budget for FYE ending June 30, 2020 (FY 2020) at a general board meeting. The financial plan for FYE 2020, compared to projected results during the budget process, included a 1.9% increase in Gross Revenue (but no increase in charges) and a 3.8% increase in Net Revenue. Operating Expense is budgeted to increase by 3.3%. The net result is a budgeted Surplus of \$3,661,653.

Capital expenditure plans for FY 2020 include replacement and upgrade of some surgery equipment, Laboratory point of care testing equipment, replacement of some Respiratory Therapy equipment, new snow removal truck, and replacement of aging desktop computers.

Current and future favorable operations are helped by the continuation of a parcel tax assessed on property located in the Big Bear Valley area and an allocation of county tax revenue. During FYE 2019, the District received \$2,459,050 in such tax revenue. The projected tax revenue for FYE 2020 is \$2,423,000.

BUSINESS STRATEGIES

In May 2014, the District converted to Critical Access Hospital (CAH) status. Our Analysis after filing FYE 2018 Cost Report showed a favorable impact of \$1,094,283 for the year from CAH status as compared to payments we would have received as a PPS (Prospective Payment System) Hospital. FY 2017 favorable impact was \$1,199,103.

Revenue cycle management and cost containment strategies

Administration is continuing its efforts to improve the revenue cycle process by monitoring provider contract administration, accounts receivable through our Accounts Receivable Management agreement, and working with Management Company consultants.

Also, administration will continue to work to monitor and lower operating expenses as possible to improve the net operating margin.

Status of Regulatory Requirements

- The District is in compliance with applicable state and federal regulations.
- The facility was reclassified as SPC-2 under HAZUS to comply with Senate Bill (SB) 1953.

Administration is working to meet the SB 1953 deadline under NPC-3 performance levels that requires healthcare institutions to be in compliance by the year 2030. Accordingly, the objective is to identify the full extent of equipment and non-structural items that must meet NPC-3 anchorage requirement. Once a plan is established develop a timetable to ensure compliance with NPC-3 performance level as quickly as possible. We continue to focus on operations to improve cash flow to have funds to pay toward such a costly undertaking.

Management's Discussion and Analysis

June 30, 2019

- On January 1, 2007, Assembly Bill (AB) 774 Charity Care and Discount Payment law was effective. The District implemented and updated its charity and discount payment policy to conform to the requirements of AB 774. Additionally, in 2008 all acute care hospitals were required to file electronically their Charity Care and Discount Payment Policy with OSHPD. The District is in compliance with OSHPD policy.
- Administration reviewed the charge description master (CDM), updated it as necessary, and as required filed the electronic CDM with OSHPD.
- The State of California had proposed a reduction in the Distinct-Part Skilled Nursing Facility (DP/SNF) reimbursement rate to 90% of the 2008-2009 level in AB 97, with a caveat to apply this reduction retroactively with a "clawback" demand for repayment. The Department of Health Care Services (DHCS) did announce in August 2013 that rural DP/SNFs would be exempted from this rate reduction. The clawback provision was eliminated during FYE 2016.

HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT (HIPAA)

Beginning in 2002, the District began an effort to comply with the Health Insurance Portability and Accountability Act (HIPAA) enacted by the federal government. Required steps to comply with provisions of the Act have been put into place within the periods specified therein. Upgrades to our patient information system have already been installed to meet the security requirements. The information system infrastructure will continue to be reviewed throughout the stages of HIPAA enforcement to ensure continued compliance. The employees of the District continue to be educated in the privacy requirements of the Act. Organizations are subject to significant fines and penalties if found not to be compliant with the provisions outlined in the regulations. Moreover, the state of California passed a law requiring additional state requirements regarding patient confidentiality. The District complies with the HIPAA and the new California law.

ELECTRONIC HEALTH RECORD (EHR)

In 2009, the American Recovery and Reinvestment Act (ARRA) was signed into law. The Health Information Technology Economic and Clinical Health (HITECH) Act is part of the ARRA. The HITECH Act created the Medicare and Medicaid (Medi-Cal in California) EHR incentive programs, which will provide incentive payments to eligible professionals and hospitals that adopt and demonstrate Meaningful Use (MU) of certified EHR technology. These incentives are considered to be of high strategic importance by virtually all healthcare organizations in the United States to further the federal government's goal of achieving health care reform and improvement of clinical outcomes for the population. The District implemented its electronic medical records system effective April 1, 2013 and attested that it has achieved MU as of October 2013. We continue to meet the requirements of MU.

Management's Discussion and Analysis

June 30, 2019

ACCOUNTABLE CARE ACT (ACA)

The future of the ACA still seems to be uncertain. National election results and claims to revise or even repeal come on the heels of uncertainty of what will happen with the Healthcare Exchanges in light of likely high increase in premium cost and some carriers no longer being willing to offer coverage in certain locations. Congressional efforts to repeal or repair or replace the ACA have not been successful. Major healthcare reform could have a huge impact on California and Bear Valley Community Healthcare District.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 1 - ORGANIZATION AND ACCOUNTING POLICIES

Reporting Entity: Bear Valley Community Health Care District (the District) is a public entity organized under Local Hospital District Law as set forth in the Health and Safety Code of the State of California. The District operates a hospital, Bear Valley Community Hospital (the Hospital), for the community of Big Bear Lake and the surrounding area. The Hospital is a 30-bed facility that provides general acute and skilled nursing care. As a political subdivision of the State of California, the District is generally not subject to federal or state income taxes.

Basis of Preparation: The accounting policies and financial statements of the District generally conform with the recommendations of the audit and accounting guide, *Health Care Organizations*, published by the American Institute of Certified Public Accountants. The financial statements are presented in accordance with the pronouncements of the Governmental Accounting Standards Board (GASB). For purposes of presentation, transactions deemed by management to be ongoing, major or central to the provision of health care services are reported as operational revenues and expenses.

The District uses enterprise fund accounting. Revenues and expenses are recognized on the accrual basis using the economic resources measurement focus. Based on GASB Statement Number 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, as amended, the District has elected to apply the provisions of all relevant pronouncements as the Financial Accounting Standards Board (FASB), including those issued after November 30, 1989, that do not conflict with or contradict GASB pronouncements.

Financial Statement Presentation: The District applies the provisions of GASB 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments (Statement 34), as amended by GASB 37, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments: Omnibus, and Statement 38, Certain Financial Statement Note Disclosures. Statement 34 established financial reporting standards for all state and local governments and related entities. Statement 34 primarily relates to presentation and disclosure requirements. The impact of this change was related to the format of the financial statements; the inclusion of management's discussion and analysis; and the preparation of the statement of cash flows on the direct method. The application of these accounting standards had no impact on the total net position.

Management's Discussion and Analysis: Statement 34 requires that financial statements be accompanied by a narrative introduction and analytical overview of the District's financial activities in the form of "management's discussion and analysis" (MD&A). This analysis is similar to the analysis provided in the annual reports of organizations in the private sector.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 1 - ORGANIZATION AND ACCOUNTING POLICIES (continued)

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents and Investments: The District considers cash and cash equivalents to include certain investments in highly liquid debt instruments, when present, with an original maturity of a short-term nature or subject to withdrawal upon request. Exceptions are for those investments which are intended to be continuously invested. Investments in debt securities are reported at market value. Interest, dividends and both unrealized and realized gains and losses on investments are included as investment income in non-operating revenues when earned.

Patient Accounts Receivable: Patient accounts receivable consist of amounts owed by various governmental agencies, insurance companies and private patients. The District manages its receivables by regularly reviewing the accounts, inquiring with respective payors as to collectability and providing for allowances on their accounting records for estimated contractual adjustments and uncollectible accounts. Significant concentrations of patient accounts receivable are discussed further in the footnotes.

Supplies: Inventories are consistently reported from year to year at cost determined by average costs and replacement values which are not in excess of market. The District does not maintain levels of inventory values such as those under a first-in, first out or last-in, first out method.

Assets Limited as to Use: Assets limited as to use include amounts designated by the Board of Directors for replacement or purchases of capital assets and other specific purposes. Assets limited as to use consist of money market accounts on hand with banking institutions.

Capital Assets: Capital assets consist of property and equipment and are reported on the basis of cost, or in the case of donated items, on the basis of fair market value at the date of donation. Routine maintenance and repairs are charged to expense as incurred. Expenditures which increase values, change capacities, or extend useful lives are capitalized. Depreciation of property and equipment and amortization of property under capital leases are computed by the straight-line method for both financial reporting and cost reimbursement purposes over the estimated useful lives of the assets, which range from 10 to 30 years for buildings and improvements, and 3 to 10 years for equipment. The District periodically reviews its capital assets for value impairment. As of June 30, 2019, and 2018, the District has determined that no capital assets are impaired.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 1 - ORGANIZATION AND ACCOUNTING POLICIES (continued)

Compensated Absences: The employees of the District earn paid time off ("PTO") benefits at varying rates. The rate is determined based on their years of service. This PTO benefit can accumulate up to specified maximum levels. Employees may use their accumulated PTO for vacation, holidays and sick leave. Accumulated PTO benefits are paid to an employee upon either termination or retirement. Accrued PTO liabilities as of June 30, 2019, and 2018 are \$575,350 and \$516,171, respectively.

Risk Management: The District is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; and medical malpractice. Commercial insurance coverage is purchased for claims arising from such matters.

Net Position: Net position (formally net assets) is presented in three categories. The first category is net position "invested in capital assets, net of related debt". This category of net position consists of capital assets (both restricted and unrestricted), net of accumulated depreciation and reduced by the outstanding principal balances of any debt borrowings that were attributable to the acquisition, construction, or improvement of those capital assets.

The second category is "restricted" net position. This category consists of externally designated constraints placed on assets by creditors (such as through debt covenants), grantors, contributors, law or regulations of other governments or government agencies, or law or constitutional provisions or enabling legislation.

The third category is "unrestricted" net position. This category consists of net assets that do not meet the definition or criteria of the previous two categories.

Net Patient Service Revenues: Net patient service revenues are reported in the period at the estimated net realized amounts from patients, third-party payors and others including estimated retroactive adjustments under reimbursement agreements with third-party programs. Normal estimation differences between final reimbursement and amounts accrued in previous years are reported as adjustments of current year's net patient service revenues.

Charity Care: The District accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to certain established policies of the District. Essentially, these policies define charity services as those services for which no payment is anticipated. Because the District does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenues. Services provided are recorded as gross patient service revenues and then written off entirely as an adjustment to net patient service revenues.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 1 - ORGANIZATION AND ACCOUNTING POLICIES (continued)

District Tax Revenues: The District receives financial support from property taxes. These funds are used to support operations. They are classified as non-operating revenue as the revenue is not directly linked to patient care. Property taxes are levied by the County on the Hospital's behalf during the year, and are intended to help finance the District's activities during the same year. Amounts are levied on the basis of the most current property values on record with the County. The County has established certain dates to levy, lien, mail bills, and receive payments from property owners during the year. Property taxes are considered delinquent on the day following each payment due date.

Grants and Contributions: From time to time, the District receives grants from various governmental agencies and private organizations. The District also receives contributions from related foundation and auxiliary organizations, as well as from individuals and other private organizations. Revenues from grants and contributions are recognized when all eligibility requirements, including time requirements are met. Grants and contributions may be restricted for either specific operating purposes or capital acquisitions. These amounts, when recognized upon meeting all requirements, are reported as components of the statement of revenues, expenses and changes in net assets.

Operating Revenues and Expenses: The District's statement of revenues, expenses and changes in net position distinguishes between operating and non-operating revenues and expenses. Operating revenues result from exchange transactions associated with providing health care services, which is the District's principal activity. Operating expenses are all expenses incurred to provide health care services, other than financing costs. Non-operating revenues and expenses are those transactions not considered directly linked to providing health care services.

Subsequent events: Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Reclassifications: Certain financial statement amounts as presented in the prior year financial statements have been reclassified in these, the current year financial statements, in order to conform to the current year financial statement presentation.

NOTE 2 – CASH AND CASH EQUIVALENTS

As of June 30, 2019 and 2018, the District had deposits invested in various financial institutions in the form of cash and cash equivalents amounting to \$27,847,507 and \$19,821,970. All of these funds were held in deposits, which are collateralized in accordance with the California Government Code (CGC), except for \$250,000 per account that is federally insured.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 2 – CASH AND CASH EQUIVALENTS (continued)

Under the provisions of the CGC, California banks and savings and loan associations are required to secure the District's deposits by pledging government securities as collateral. The market value of pledged securities must equal at least 110% of the District's deposits. California law also allows financial institutions to secure Hospital deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total deposits. The pledged securities are held by the pledging financial institution's trust department in the name of the District.

Investments consist of U.S. Government securities and state and local agency funds invested in U.S. Government securities and are stated at quoted market values. Changes in market value between years are reflected as a component of investment income in the accompanying statement of revenues, expenses and changes in net assets.

NOTE 3 - NET PATIENT SERVICE REVENUES AND REIMBURSEMENT PROGRAMS

The District renders services to patients under contractual arrangements with the Medicare and Medi-Cal programs, health maintenance organizations (HMOs), preferred provider organizations (PPOs) and other insurance programs. Patient service revenues from these programs approximate 96% of gross patient service revenues.

The Medicare Program reimburses the District on a cost basis payment system for inpatient and outpatient hospital services. The cost-based reimbursement is determined based on filed Medicare cost reports. Skilled nursing services are reimbursed on a predetermined amount based on the Medicare rates for the services.

The District contracts to provide services to Medi-Cal, HMO and PPO inpatients on negotiated rates. Certain outpatient reimbursement is subject to a schedule of maximum allowable charges for Medi-Cal and to a percentage discount for HMOs and PPOs. The skilled nursing facility (SNF) is reimbursed by the Medi-Cal program on a prospective per diem basis subject to audit by the state. The results of the state audits are incorporated prospectively and are subject to appeal by the provider.

Both the Medicare and Medi-Cal program's administrative procedures preclude final determination of amounts due to the District for services to program patients until after patients' medical records are reviewed and cost reports are audited or otherwise reviewed by and settled with the respective administrative agencies. The Medicare and Medi-Cal cost reports are subject to audit and possible adjustment. Management is of the opinion that no significant adverse adjustment to the recorded settlement amounts will be required upon final settlement.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 3 - NET PATIENT SERVICE REVENUES AND REIMBURSEMENT PROGRAMS (continued)

Medicare and Medi-Cal revenue accounts for approximately 56% and 57% of the District's net patient revenues for the years ended June 30, 2019 and 2018, respectively. Laws and regulations governing the Medicare and Medi-Cal programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

NOTE 4 - INVESTMENTS

The District's investment balances, and average maturities were as follows at June 30, 2019 and 2018:

	_2	2019				
	Investment Maturities in Years					
	Fair Value Less than 1 1 to 5				Ov	er 5
Government investment funds	\$ 25,298,992	\$ 25,298,992	\$ -		\$	
Total investments	\$ 25,298,992	\$ 25,298,992	\$		\$	
		2018				
Investment Maturities in Years						
	Fair Value	Less than 1		1 to 5	Ov	er 5
Government investment funds	\$ 16,812,903	\$ 16,812,903	\$	-	\$	-
Money market accounts	613,518	613,518		-		-
Certificates of deposit	242,000			242,000		_
Total investments	\$ 17,668,421	\$ 17,426,421	\$	242,000	\$	

The District's investments are reported at fair value as previously discussed. The District's investment policy allows for various forms of investments generally set to mature within a few months to others over 15 years. The policy identifies certain provisions which address interest rate risk, credit risk and concentration of credit risk. Currently all investments have a maturity of less than one year.

Interest income, dividends, and both realized and unrealized gains and losses on investments are recorded as investment income. These amounts were \$528,347 and \$287,303 for the years ended June 30, 2019 and 2018, respectively. Total investment income includes both income from operating cash and cash equivalents and cash equivalents related to assets limited as to use. Debt securities, when present, are recorded at market price or the fair market value as of the date of each balance sheet.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 4 – INVESTMENTS (continued)

Interest Rate Risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The District's exposure to interest rate risk is minimal as 100% of their investments have a maturity of less than one year. Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the preceding schedules that shows the distribution of the District's investments by maturity.

Credit Risk: Credit risk is the risk that the issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization, such as Moody's Investor Service, Inc. The District's investments in such obligations are in government investment funds. The District believes that there is minimal credit risk with these obligations at this time.

Custodial Credit Risk: Custodial credit risk is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer), the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The District's investments are generally held by banks or government agencies. The District believes that there is minimal custodial credit risk with their investments at this time. District management monitors the entities which hold the various investments to ensure they remain in good standing.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investments are held as follows: governmental agencies 100%. The District believes that there is minimal custodial credit risk with their investments at this time. District management monitors the entities which hold the various investments to ensure they remain in good standing.

NOTE 5 - ASSETS LIMITED AS TO USE

Assets limited as to use as of June 30, 2019 were comprised of cash held in a Debt Service Reserve Fund as required by the terms of a sale and leaseback agreement entered into by the District in January 2019. Under the agreement the District is required to make annual payments into the Debt Service Reserve Fund equal to $1/10^{th}$ of the current annual lease payment. The District established this fund accordingly and at June 30, 2019 the balance totaled \$144,375. See Note 9.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 6 - CONCENTRATION OF CREDIT RISK

The District grants credit without collateral to its patients and third-party payors. Patient accounts receivable from government agencies represent the only concentrated group of credit risk for the District and management does not believe that there is any credit risk associated with these governmental agencies. Contracted and other patient accounts receivable consist of various payors including individuals involved in diverse activities, subject to differing economic conditions and do not represent any concentrated credit risks to the District. Concentration of patient accounts receivable at June 30, 2019 and 2018 were as follows:

	2019	2018
Medicare	\$ 822,832	\$ 880,476
Medi-Cal and Medi-Cal pending	3,063,943	3,533,838
Other third party payors	2,404,272	3,921,858
Self pay and other	2,501,315	2,261,762
Gross patient accounts receivable	8,792,362	10,597,934
Less allowances for contractual adjustments and bad debts	(5,906,428)	(6,413,352)
Net patient accounts receivable	\$ 2,885,934	\$ 4,184,582

NOTE 7 - OTHER RECEIVABLES

Other receivables as of June 30, 2019 and 2018 were comprised of the following:

	2019		 2018
Grants	\$	63,739	\$ 35,023
Workers Compensation refund		18,718	-
Physician advance		43,312	59,978
District tax revenue		50,061	52,044
Other		1,472	 2,587
▼	\$	177,302	\$ 149,632

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 8 - CAPITAL ASSETS

Capital assets as of June 30, 2019 and 2018 were comprised of the following:

	Balance at	Transfers &	Transfers &	Balance at
	June 30, 2018	Additions	Retirements	June 30, 2019
Land and land improvements	\$ 570,615	\$	\$	\$ 570,615

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 9 - DEBT BORROWINGS

Long-term debt at June 30, 2019 and 2018 consists of the following:

	2019	2018
Note payable to the Public Property Financing Corporation		
of California, original amount of \$3,000,000, bearing		
interest at 3.125%, principal payable annually and interest		
payable biannually per schedule, maturing in December		
2055, secured by property, building and improvements.	\$ 2,895,000	\$ 2,930,000
Total debt borrowings	2,895,000	2,930,000
Less current maturities	(40,000)	(35,000)
Debt borrowings, net of current maturities	\$ 2,855,000	\$ 2,895,000

Effective January 1, 2016, the District entered into a sale and leaseback agreement with the United States Department of Agriculture, acting through the Rural Housing Service and the Public Property Financing Corporation of California, for the Brenda Boss Family Resource Center. The Brenda Boss Family Resource Center is a building recently constructed by the District on the District's main hospital campus and was put into service during the fiscal year ended June 30, 2014. In accordance with GAAP, the sale and leaseback agreement will be treated as a financing transaction. The principal amount borrowed totaled \$3,000,000, with an annual interest rate of 3.125%. Principal is payable annually on December 1st starting in 2016 and continuing through 2055 per a schedule with payments ranging in amounts from \$35,000 to \$140,000. Interest is payable biannually on June 1st and December 1st in an amount equal to the current outstanding principal balance multiplied by the annual interest rate of 3.125% and divided by two, for a six-month interest amount. There is no provision for a pre-payment penalty. The District must establish and maintain a Debt Service Reserve Fund throughout the term of the sale and leaseback agreement. The District is required to make annual payments into the Debt Service Reserve Fund equal to 1/10th of the current annual lease payment. The District established this fund and at June 30, 2019 the balance totaled \$144,375. Upon completion of the sale and leaseback agreement, ownership and title of the Brenda Boss Building will revert to the District with no encumbrances.

Future principal maturities for debt borrowings for the next five years are: \$40,000 in 2020; \$40,000 in 2021; \$40,000 in 2022; \$45,000 in 2023; \$45,000 in 2024; and \$2,685,000 thereafter.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 10 - RETIREMENT PLANS

The District has a defined contribution retirement plan covering substantially all of the District's employees. In a defined contribution retirement plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The District contributes to the plan at a rate of two to four percent of eligible compensation, based on the length of the employee's service as defined by the plan. The District's contributions become fully vested after three years of continuous service. The District's pension expense for the plan was \$184,994 and \$167,078 during the years ended June 30, 2019 and 2018, respectively.

NOTE 11 – INCOME TAXES

The District is a political subdivision of the state of California organized under the Local Health Care District Law as set forth in the Health and Safety Code of the State of California. The Hospital has been determined to be exempt from income taxes under Local Health Care District Law. Accordingly, no provision for income taxes is included in the accompanying financial statements. The District is no longer subject to examination by federal or state authorities for years prior to June 30, 2015, nor has it been notified of any impending examination and no examinations are currently in process.

NOTE 12 - COMMITMENTS AND CONTINGENCIES

Construction-in-Progress: As of June 30, 2019, the District has \$220,453 recorded as construction-in-progress which represents cost capitalized for various remodeling, major repair, and expansion projects on the District's premises. No interest was capitalized under FAS 62 during the years ended June 30, 2019 and 2018. Estimated costs to complete current obligated construction-in-progress projects as of June 30, 2019 are approximately \$257,000. Costs are to be financed with District reserves and continued District operations.

Operating Leases: The District has operating leases for office space and various medical and office equipment. Rental expense under operating leases was \$136,3818 and \$270,708 for the years ended June 30, 2019 and 2018, respectively. Future minimum lease payments for the succeeding years under operating leases with a remaining term in excess of one year as of June 30, 2019, are as follows: \$121,236 in 2020; \$63,428 in 2021; and \$23,730 in 2022.

Litigation: The District may from time-to-time be involved in litigation and regulatory investigations which arise in the normal course of doing business. After consultation with legal counsel, management estimates that matters existing as of June 30, 2019, will be resolved without material adverse effect on the District's future financial position, results from operations or cash flows.

Notes to Financial Statements

June 30, 2019 and 2018

NOTE 12 - COMMITMENTS AND CONTINGENCIES (continued)

Workers Compensation Program: The District is a participant in the Association of California Hospital District's ALPHA Fund which administers a self-insured worker's compensation plan for participating hospital employees of its member hospitals. The District pays premiums to the ALPHA Fund which is adjusted annually. If participation in the ALPHA Fund is terminated by the District, the District would be liable for its share of any additional premiums necessary for final disposition of all claims and losses covered by the ALPHA Fund

Health Insurance Portability and Accountability Act: The Health Insurance Portability and Accountability Act (HIPAA) was enacted August 21, 1996, to ensure health insurance portability, reduce health care fraud and abuse, guarantee security and privacy of health information, and enforce standards for health information. Organizations are subject to significant fines and penalties if found not to be compliant with the provisions outlined in the regulations. Management continues to evaluate the impact of this legislation on its operations including future financial commitments that will be required.

Health Care Reform: The health care industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements and reimbursement for patient services, antitrust, anti-kickback and anti-referral by physicians, false claims prohibitions and, in the case of tax-exempt organizations, the requirement of tax exemption. In recent years, government activity has increased with respect to investigations and allegations concerning possible violations by health care providers of reimbursement, false claims, anti-kickback and anti-referral statutes and regulations, quality of care provided to patients, and handling of controlled substances. Violations of these laws and regulations could result in expulsion from government health care programs with the imposition of significant fines and penalties as well as significant repayments for patient services previously billed.

Laws and regulations concerning government programs, including Medicare, Medicaid and various other programs, are complex and subject to varying interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. As a result of nationwide investigations by governmental agencies, various health care organizations have received requests for information and notices regarding alleged noncompliance with those laws and regulations, which, in some instances, have resulted in organizations entering into significant settlement agreements.

Compliance with such laws and regulations may also be subject to future government review and interpretation as well as significant regulatory action, including fines and penalties and exclusion from related programs. The District expects that the level of review and audit to which it and other health care providers are subject will increase. There can be no assurance that regulatory authorities will not challenge the District's compliance with these regulations, and it is not possible to determine the effect (if any) such claims or penalties would have upon the District.

Recommendation for Action

Date: 04 December 2019

To: Board of Directors

From: Garth M Hamblin, CFO

Re: Medicare Cost Report - FY 2019 (July 1, 2018 through June 30, 2019)

Recommended Action

Accept / Approve submittal of Medicare Cost Report for the Fiscal Year ended June 30, 2019 signed by John Friel, CEO.

Background

The Cost Report for our Fiscal Year ended June 30, 2019, (attached) shows an amount due to BVCHD of \$186,532.

Wipfli, LLP, prepared the Cost Report and David Perry of QHR reviewed the Cost Report.

Bear Valley Community Hospital

Form CMS-2552-10, Hospital and Hospital Health Care Complex Cost Report (With Accountant's Compilation Report) For the Year Ended June 30, 2019

Accountant's Compilation Report

Board of Directors Bear Valley Community Hospital Big Bear Lake, CA

Management is responsible for the accompanying Medicare Cost Report of Bear Valley Community Hospital, included in the accompanying prescribed form as of and for the year ended June 30, 2019. We have performed a compilation engagement in accordance with *Statements on Standards for Accounting and Review Services* promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the Medicare Cost Report included in the accompanying prescribed form nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on this Medicare Cost Report.

Other Matter

The Medicare Cost Report included in the accompanying prescribed form is intended to comply with the requirements of the Centers for Medicare and Medicaid Services and is not intended to be a presentation in accordance with accounting principles generally accepted in the United States.

Restriction on Use

Our report and the prescribed form are intended solely for the information and use of management and the Centers for Medicare and Medicaid Services and are not intended to be, and should not be, used by anyone other than those specified parties.

Finance Report
October 2019 Results

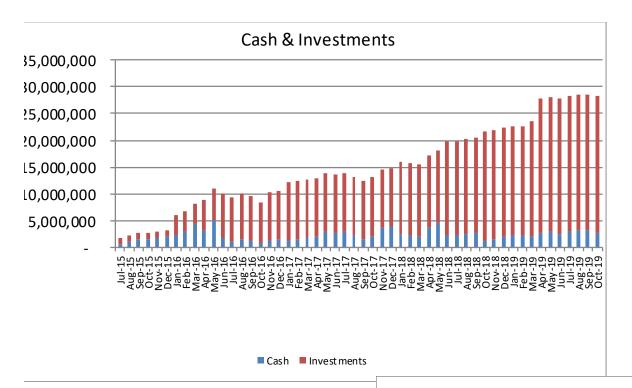

Summary for October 2019

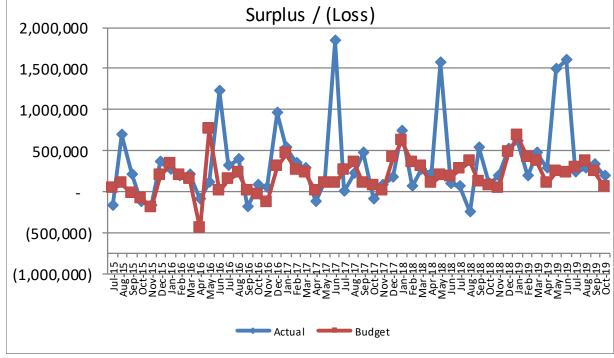

• Cash on hand \$ 2,853,286

Investments \$25,454,833

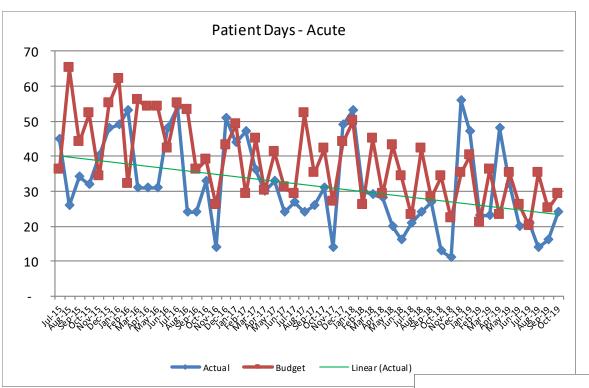

- Days Cash on hand, including investments with LAIF – 414
- Surplus of \$197,151 for the month was over budget by \$150,157
- Total Patient Revenue was over Budget by 0.8% for the month
- Net Patient Revenue was 12.6% over budget.
- Total Expenses were 6.3% higher than budget

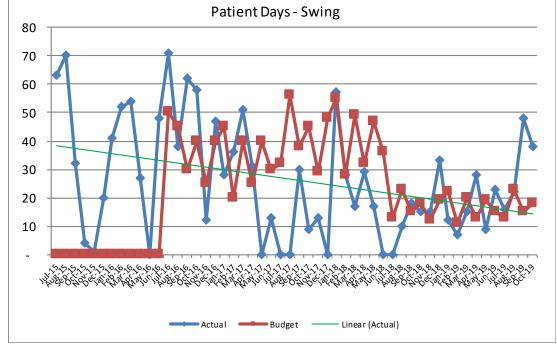

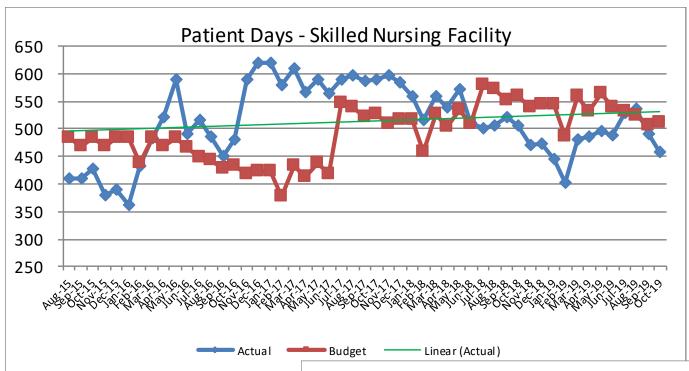

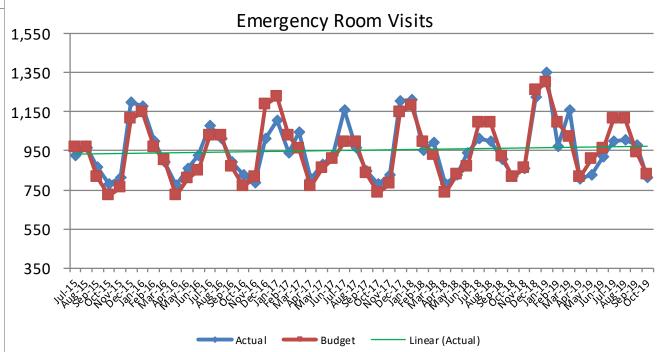

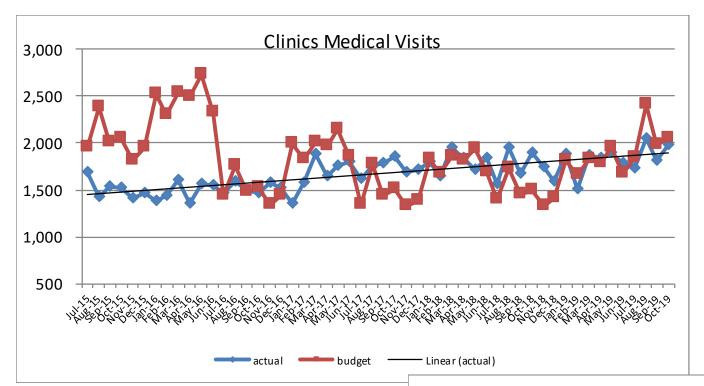

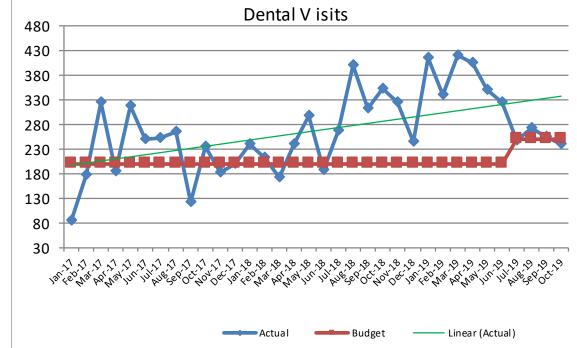

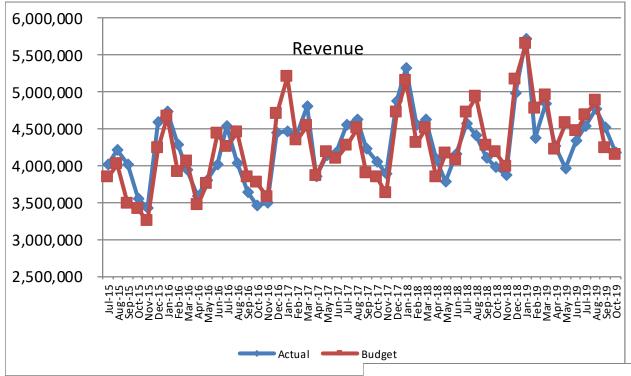

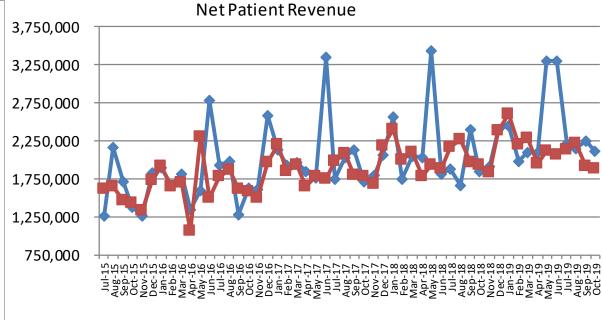

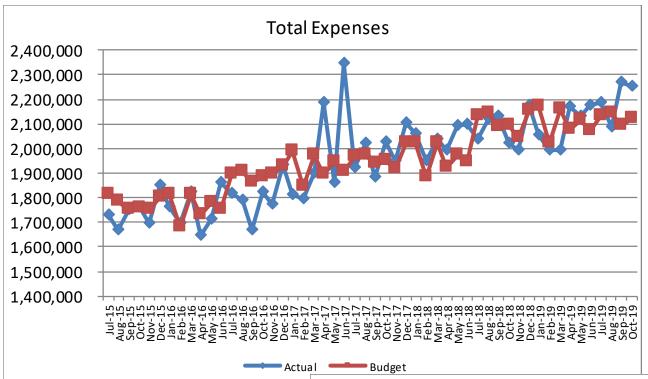

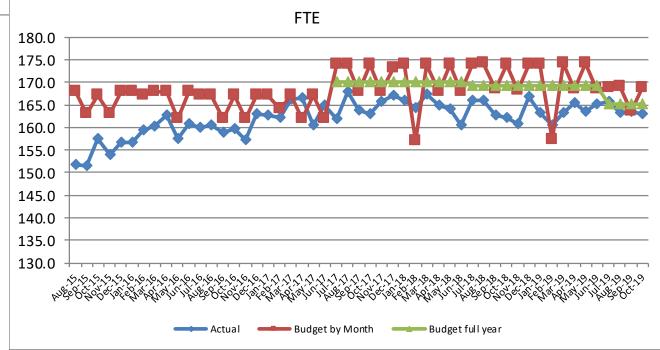

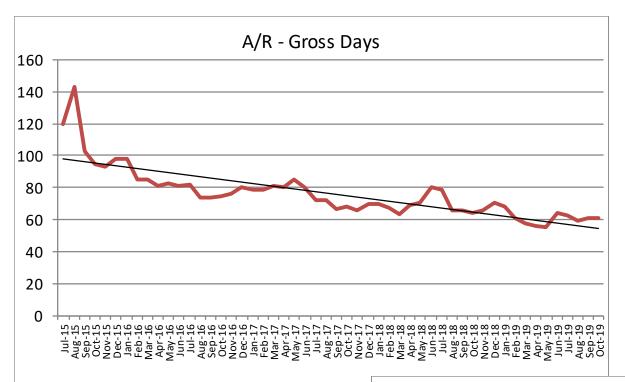

Actual

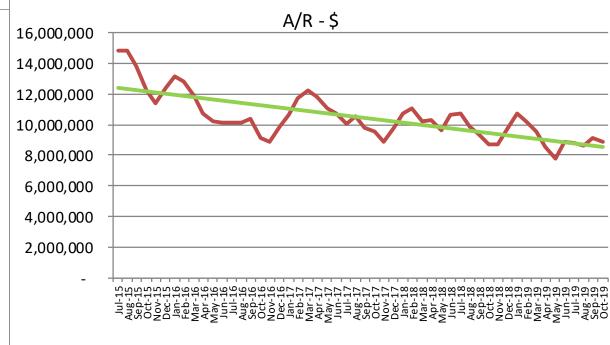

October 2019 Financial Results

For the month . . .

Total Patient Revenue for October 2019 was \$4,179,010 - this was \$35,023 or 0.8% more than budget. Emergency Room revenue was 2.3% more than budget. Outpatient revenue was 2.3% more than budget. Other categories of revenue (Inpatient, Clinic, and Skilled Nursing Facility) were lower than budget.

Revenue deductions of \$2,063,140 were lower than budget by 8.9%.

Total Operating Revenue of \$2,256,651 was \$288,887 or 14.7% more than budget.

Total Expenses of \$2,254,129 were 6.3% higher than budget. Most of the difference from budget came in the category of Repairs and Maintenance.

Our surplus for the month of October 2019 was \$197,151. This was \$150,157 higher than the budgeted amount for the month.

Our Operating Cash and Investments total \$28,308,119 as of the end of month. Total days cash on hand as of the end of October 2019 are 414.

Key Statistics

Acute patient days of 24 were less than the budgeted number of 29. Swing days of 38 were more than 2 times the budgeted number. Skilled Nursing Facility days of 491 were 10% lower than budget – our Average Daily Census was 14.8. ER Visits of 812 were 1.9% lower than budget. Clinics Medical and Dental visits were both under budget.

FTE continue to run under budget.

Year To Date - Through the first 4 months of our Fiscal Year

Total Patient Revenue is 0.3% higher than budget

Total Operating Revenue is 4.7% higher than budget

Total Operating Expenses are 3.0% more than budget

Our Surplus of \$1,120,549 is \$185,539 more than budget, and \$664,162 more than the first 4 months of last year

CFO REPORT for

December 2019 Finance Committee and Board Meetings

TruBridge – Accounts Receivable Management

Accounts Receivable days (Gross) were 60.6 as of the end of October 2019. Graphs of trends in Accounts Receivable Days and Dollars are in the Financial Report.

FTE Report

Attached is a report showing FTE by Department and comparing year-to-date FTE for the Fiscal Year through the pay period ending October 26, 2019 & FY 2020 Budget & recommendations from the Productivity Assessment. 16 or 30 departments are at or below the number indicted in the Productivity Assessment. Overall FTE are running under the budgeted number.

IT Strategic Plan Update

In the first quarter of 2019 Dell-Secureworks performed an external Network Penetration Test (PEN Test) on the BVCHD network. The test was highly successful as Dell engineers could not successfully penetrate our network in any phase of their test. In their conclusions Dell engineers offered several system configuration change recommendations to further strengthen our external security that have all been implemented at this time.

Dell Secureworks performed a HIPAA Risk assessment and provided the final draft of their findings at the end of the 2nd quarter. In the final report's "Summary of Findings" Dell discovered that "the majority of sections pertaining to HIPAA Security Rules were substantially fulfilled." They stated that the "key areas of concern were weak process documentation" and policies to support those processes. They concluded the findings summary by saying that "as a whole, BVCHD's security program appears well-organized with a staff that is very knowledgeable of HIPAA requirements and industry security

practices." Their advice was to fully document our processes to complete our program. The Executive Summary is attached.

In June, a HIPAA security workgroup was established to focus on HIPAA practices, cybersecurity and training. This workgroup distilled the HIPAA Risk Assessment final report down into a manageable action plan, which is currently being worked primarily by the IT team. The core of this work involves writing new and/or updating policies/procedures and drafting long term plans identified by the HIPAA Risk Assessment report.

IT Cyber Security Insurance

We continue to evaluate Cyber Insurance. We are finding that premiums are quite high and policies have a lot of exclusions. We continue to review.

Policy & Procedure Department Update

As noted above, IT policies are under review and development based on assessments

1. Executive Summary

Bear Valley Community Healthcare District (BVCHD) engaged Secureworks to conduct a HIPAA Gap Analysis. Secureworks performed the assessment between 2/19/2019 and 2/21/2019. The goal was to assess the current state of the BVCHD security posture as compared to the standards found in the HIPAA Security Rule.

This section offers a broad overview of the engagement results and contains a summary of the findings. Subsequent sections contain the methodology used and detailed findings for all HIPAA safeguards, administrative requirements, and documentation, as well as the Secureworks recommendations.

Secureworks selectively reviewed BVCHD's documentation, interviewed employees, and conducted various technical reviews. Included in the scope of review were a wide range of physical, technical, and administrative security controls covered by the HIPAA Security Rule.

1.1 Summary of Findings

The HIPAA Security and Privacy regulations mandate that Covered Entities (healthcare providers, payers, and clearinghouses) take steps to maintain the confidentiality, integrity, and availability of Protected Health Information, and to prevent its disclosure to others except as permitted by law or as authorized by the patient.

Secureworks discovered that the majority of sections pertaining to the HIPAA Security Rules were substantially fulfilled. A partial policy set exists and some processes at least partially address the HIPAA standards and provide a base to fulfill the Security Rule. For a number of HIPAA sections, the key areas of concern were weak process documentation, partial implementation of processes within the organization, and the development and maturing of key security processes. As a whole, BVCHD's security program appears well-organized with a staff that is very knowledgeable of HIPAA requirements and industry security practices.

With the aid of this assessment and appropriate organizational support, BVCHD should be well-equipped to continue the evolvement of their security program and their journey toward HIPAA compliance.

1.2 Areas of Concern

Secureworks found that BVCHD, while having a small IT staff, has implemented an excellent security program. In discussions with staff, several new initiatives were mentioned that will further enhance BVCHD's security posture.

The primary area of concern bridges several control domains. Therefore, I will summarize the issues here.

1.2.1 CPSI issues

BVCHD uses a software product identified as CPSI, supplied by a company of the same name. This product operates most of the hospital functions and serves as a primary repository for electronic protected health information (ePHI). Secureworks did not note any insecure processes related to CPSI. However, BVCHD operates CPSI as a "black box", with an inability to assure critical information security protections and processes are being properly executed.

Specific concerns with CPSI identified include:

- The primary administrative functions within the CPSI product are performed by CPSI staff. BVCHD has limited input as to the execution and scheduling of these functions. Administrative tasks allowed to be conducted by BVCHD staff are limited to adding and deleting users and groups. While Secureworks saw no evidence that the CPSI staff is not performing this function well, the ultimate responsibility belongs to BVCHD. Secureworks recommends a formal risk assessment of this vendor be performed to provide mitigation where possible and informed risk acceptance by senior management of any residual risk. In addition, the BAA must be altered, if feasible, to include SLAs and metrics to assure compliance.
- Tracking of all functions within CPSI appears to be very granular, which could provide excellent alerting of harmful activity, and forensic evidence after an incident; however, no proactive monitoring of activity is taking place. BVCHD does perform regular audit reviews of these logs, but the lack of proactive review limits the ability to recognize some types of inappropriate behavior in a timely manner. Secureworks recommends consider some form of near-real-time log monitoring and alerting. Perhaps CPSI can provide this as an add-on service, or they can export the data in near-real-time to a SIEM or Managed Security Service (MSS).
- The CPSI staff has both access to and the ability to alter entries in the audit log. This violates separation of duties principles. Secureworks recommends that BVCHD review with CPSI the controls in place to prevent and/or detect such alterations. In addition, a coordinated alerting process between CPSI and BVCHD is recommended to respond to such incidents.
- The CPSI cloud is the secondary/tertiary fall back position in case of a disaster. As currently configured, the CPSI system can be brought up on a different local host in the case of hardware failure; however, both primary and secondary hosts are in the same server room. An incident that destroys the room (fire, water/sprinkler, vandalism) would require failing over to the cloud-based service as a tertiary processing location. Data is only backed up to the cloud every 24 hours, leaving a possibility of loss of up to 24-hours of data. Secureworks recommends investigating the movement of one processing server to another building on the campus, to limit the types of events that could make both devices unavailable. In addition, engage CPSI to investigate the possibility of reducing the 24 hour gap in backups. Any solution agreed to by the parties must be codified in a BAA, with an SLA and metrics in place to assure compliance. If the gap cannot be closed completely, a risk assessment must be performed to allow senior management to make informed risk acceptance decisions.

1.2.2 Policy and Procedure Issues

BVCHD staff is in the process of revising policies and procedures to meet industry best practice and HIPAA requirements. Some policies have been revised, while others are in a much simpler format. Procedures, where present, are imbedded into polices, making it difficult to obtain the proper approvals when processes change. There are recommendations for policy and process improvement throughout Section 3 of this report.

1.2.3 Lack of a Formal Information Security Risk Assessment Process

The risk management processes within BVCHD are primarily compliance based. No formal process to assess information security risk at either the change or annual level is in place. Risk is determined by an ad-hoc process by relevant staff, with no formal documentation of the result, and only verbal reports to senior management for risk mitigation and residual risk acceptance. Secureworks recommends development of a formal process, with formal workflows and criteria pre-defined to determine the proper level of assessment in each occurrence. Workflow tools, a ticketing system, and/or a formal risk tracking product can greatly assist in this process.

1.2.4 Lack of a Formal Incident Response Process

BVCHD uses an informal ad-hoc process for incident response. Secureworks recommends development of a formal incident response process, which is required by policy, that includes criteria for determining the severity of an event, a method to track incidents, pre-defined response scenarios, and a formal post-mortem/lessons learned process.

1.2.5 Ad-hoc and Undocumented Disaster Recovery and Business Continuity

BVCHD staff has a plan for recovery from most disaster scenarios. This is made possible by the fact that the vast majority of the processing for the hospital is done in CPSI. However, this plan for recovery is not staff independent, relying on the knowledge of current staff for execution. Secureworks recommends that the DR/BC and backup plans be formally documented and tested to assure they can be executed without current staff. In addition, inclusion of all critical systems in the plan is recommended.

1.2.6 Business Associate Agreements Do Not Contain Explicit Information Security Requirements or Service Level Agreements (SLAs).

The current BAAs were developed without information security in mind. Secureworks recommends that all BAAs be reviewed, and any that have information security exposure be revised, if feasible. The risk assessment process noted above can be used to perform these evaluations.

1.2.7 Not All Mobile Devices are Encrypted.

Lost or stolen unencrypted mobile device are a prime vector for data breach. Secureworks recommends a process to encrypt all mobile devices, and that this requirement be defined in policy.

1.3 Overview of Maturity Levels and Risk

Secureworks groups the HIPAA Security Rule into 22 main HIPAA sections, which generally aligns with the Security Standards. The Security Standards and Specifications are further broken down to a granular level that consists of more than 45 individual safeguards.

1.3.1 HIPAA Maturity Levels

This section summarizes the overall maturity ranking of the individual HIPAA safeguards. This generally includes a ranking for each applicable standard and implementation specification. The Secureworks methodology considers both process maturity and documentation maturity when determining an overall maturity ranking for the individual safeguard.

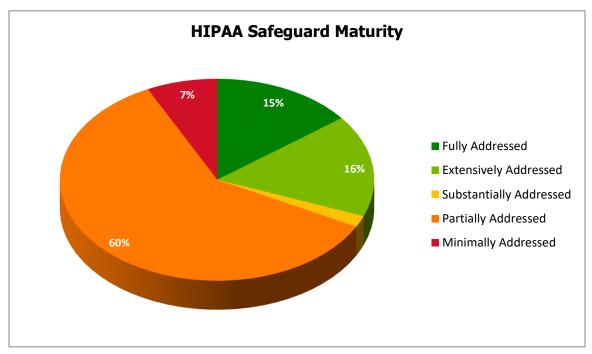

Figure 1 —HIPAA Safeguards by Maturity.

1.3.2 HIPAA Maturity by Standard

The following table shows the average Maturity Level for each HIPAA Standard. The scores are presented in the terms of Overall Percentage, as well as individual percentages for both the maturity of processes and the maturity of documentation. The percentages provided are an average of the scores for both the individual standards and any applicable implementation specifications.

For a description and example of how the Overall Maturity is determined, refer to the Methodology section.

Table 1 – Standard HIPAA Maturity by Standard.

§164.316(b)	Documentation	Partial	

1.3.3 Severity of Findings

Secureworks assigns severity ratings to all negative findings, which enable BVCHD to prioritize remediation efforts based on the severity and the corresponding level-of-effort. The severity rating is a subjective measure of the potential negative consequence to the business that could result if a vulnerability were exploited prior to its remediation. The following graph summarizes the severity of findings for all applicable HIPAA controls.

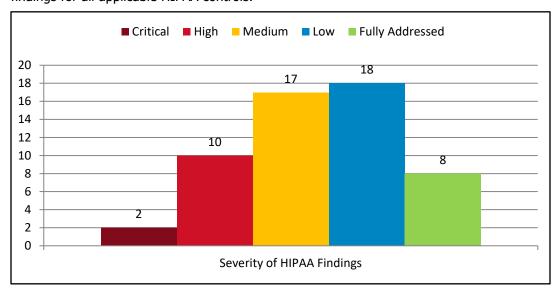

Figure 2 - Findings by Severity.

1.3.4 Remediation Matrix

The following matrix depicts the Critical and High severity level of findings for each security control area, and it provides the estimated degree of effort required for each based on Secureworks' subjective assessment. This matrix supports an effort-based approach to remediation. The reference number in the matrix cross references the Detailed Findings pertaining to each control in the Detailed Findings section.

Table 2 - Control Item Severity and Effort Matrix

xRef	Finding	Severity	Effort
	Security Management Process		
3.1.1.1	Risk Analysis		
3.1.1.2	Risk Management	High	Medium
3.1.1.3	Various enhancements are necessary for the overall security management process.
